ALICIA BUTLER

.NET Developer/Consultant
(Umbraco/Kentico/SharePoint)

Google's Womens Techmaker Ambassador

// SUMMARY

I am a highly experienced web developer/consultant (based near London) with over 26 years' experience in leading projects from concept to completion. Proficient in winning new business, crafting detailed user stories and technical briefs, managing projects, ensuring seamless communication between stakeholders, development teams, and clients. I love to troubleshoot, work on projects that challenge me and provide solutions for clients. I have many years' experience in web design and front end web development (HTML5, CSS3, Bootstrap, jQuery, JavaScript, React, Typescript, NodeJs), back-end coding (C#.Net MVC, .Net Core, REST API, GraphQL, SDL, JSON, Umbraco 7+, Kentico 11+), database development and data modelling (SQL Server), DevOps (Windows server/IIS, AWS, GCP, Azure and Docker) and writing technical documentation.
